

Bronze Age Roundhouse

People in the Bronze Age lived in roundhouses. Their animals lived in the houses with them too. A central fire provided warmth and a place to cook, but also meant roundhouses would have been dark, smoky places to live.

Would you enjoy living in a roundhouse?

Pretend you are a Bronze Age person and write a few sentences or a short paragraph about your house using lots of descriptive words!

Think about the 5 senses too - what can you touch, see, hear, taste, and smell?
